Sir Robert Falconer,

President, Toronto University,

Toronto, Ont.

Dear Sir Robert Falconer;

Do you not think it would be advisable to have a comprehensive statement go to the public on the subject of Educational work in the Canadian Expeditionary Army? Considerable space has been given to Educational work in the American Army by the American press, and I understand that Canada is not behind in this movement. If in the light of your active interest in army Educational work you will favor me with an expression of your views I shall appreciate the favor.

Yours faithfully,

W. Nichols

Dear Mr. Nichols:

I think it would be most advisable to have a comprehensive statement sent to the public on the subject of educational work in the Canadian Expeditionary Army. If you think that I ought to prepare the statement I will be glad to do it for you. In any case could you secure for me a copy of the Order-in-Council establishing the work of the educational services?

Yours very sincerely,

President.

Dear Mr. Nichols:

I have to apologize to you for not having written an answer to your letter before I went to Ottawa, but I did not get the letter till that evening, and I was engaged in Committee just before I went to the train, and I assumed that it would then be too late for me to send you anything.

My own opinion is that the Prince of Wales would be gladly welcomed in every part of the Dominion, and that his visit could not fail to do a great deal of good, as the minds of the people are drawn out always to the King or any of his representatives, whatever may be said of other titled folk.

Yours sincerely,

President.
